JOURNAL OF MOLECULAR CATALYSIS A: CHEMICAL

Author Index

Aguado, M.A., see Giménez, J. 67
Alonso, E., see Navarro, R. 111
Amao, Y. and Okura, I.
Effective photoinduced hydrogen evolution with hydrogenase in surfactant micelles 125
Anderson, J.A. and Khader, M.M.
A high pressure, high temperature infrared study of CO hydrogenation over Rh/ZrO_2 175
Bekkum, H.v., see Van der Waal, J.C. 185
Bergemann, C., Cropp, R. and Luft, G.
Copolymerization of ethylene and linear 1-olefins with a metallocene catalyst system under high pressure. Part II. Comparison of propene, 1-butene, 1-hexene and 1-decene 87
Bukhtenko, O.V., see Maksimov, Yu.V. 167
Burlakov, V.V., see Ohff, A. 103
Campestrini, S., Furia, F.D., Ghiotti, P., Novello, F. and Travaglini, C.
Olefins epoxidation by Ph_4PHSO_5 catalyzed by manganese porphyrins: A novel mechanistic proposal 17
Cativiela, C., see Navarro, R. 111
Catoni, E., Cernia, E. and Palocci, C.
Different aspects of 'solvent engineering' in lipase biocatalysed esterifications 79
Cavinato, G. and Toniolo, L.
On the mechanism of the hydrogen transfer from H_2O–CO to γ-keto-α-hydroxy carboxylic acids to yield γ-keto acids catalyzed by a $PdCl_2(PPh_3)_2$ precursor in combination with hydrochloric acid 9
Cenini, S., see Ragaini, F. 145
Cernia, E., see Catoni, E. 79
Cervera-March, S., see Giménez, J. 67
Chauhan, S.M.S., Gulati, A., Sahay, A. and Nizar, P.N.H.
Autooxidation of alkyl mercaptans catalysed by cobalt(II) phthalocyanine tetrasodium sulphonate in reverse micelles 159
Cheng, C.P., see Hsu, Y.F. 137
Chi, Q.-J. and Dong, S.-J.
A comparison of electrocatalytic ability of various mediators adsorbed onto paraffin impregnated graphite electrodes for oxidation of reduced nicotinamide coenzymes 193
Corain, B., see Hronec, M. 25
Cropp, R., see Bergemann, C. 87
Cvengrošová, Z., see Hronec, M. 25
Diaz-de-Villegas, M.D., see Navarro, R. 111
Donato, A., see Mercadante, L. 93
Dong, S.-J., see Chi, Q.-J. 193
Furia, F.D., see Campestrini, S. 17
Galvagno, S., see Mercadante, L. 93
Ganzerla, R., see Lenarda, M. 117
Ghiotti, P., see Campestrini, S. 17
Giménez, J., Aguado, M.A. and Cervera-March, S.
Photocatalytic reduction of chromium(VI) with titania powders in a flow system. Kinetics and catalyst activity 67
Gulati, A., see Chauhan, S.M.S. 159
Hayashi, H., see Sugiyama, S. 39
Hronec, M., Cvengrošová, Z., Králik, M., Palma, G. and Corain, B.
Hydrogenation of benzene to cyclohexene over polymer-supported ruthenium catalysts 25
Hsu, Y.F., Yen, M.H. and Cheng, C.P.
Autooxidation of cumene catalyzed by transition metal compounds on polymeric supports 137
Khader, M.M., see Anderson, J.A. 175
Králik, M., see Hronec, M. 25
Krieger, T.A., see Plyasova, L.M. 61
Kugel, V.Ya., see Maksimov, Yu.V. 167
Lenarda, M., Ganzerla, R., Paganelli, S., Storaro, L. and Zanoni, R.
Liquid phase hydroformylation of ring substituted styrenes catalyzed by Rh–B and Rh–Zn–B systems supported on silica 117
Liu, B.-L., see Wang, M.-L. 49
López, M.P., see Navarro, R. 111
Luft, G., see Bergemann, C. 87
Makarova, O.V., see Plyasova, L.M. 61
Maksimov, Yu.V., Suzdalev, I.P., Tsodikov, M.V., Kugel, V.Ya., Bukhtenko, O.V., Slivinsky, E.V. and Navio, J.A.
Study of cumene oxidation over zirconia-, titania- and alumina-based complex oxides obtained by sol–gel methods: activity–structure relationships 167
Mal, N.K. and Ramaswamy, A.V.
Hydroxylation of phenol over Sn–silicalite-1 molecular sieve: solvent effects 149
Mercadante, L., Neri, G., Milone, C., Donato, A. and Galvagno, S.
Hydrogenation of α,β-unsaturated aldehydes over Ru/Al_2O_3 catalysts 93
Milone, C., see Mercadante, L. 93
Moffat, J.B., see Sugiyama, S. 39
Navarro, R., Urriolabeitia, E.P., Cativiela, C., Diaz-de-Villegas, M.D., López, M.P. and Alonso, E.
Chiral Pd organometallic complexes as catalysts in cyclopropanation reactions 111
Navio, J.A., see Maksimov, Yu.V. 167
Neri, G., see Mercadante, L. 93
Nizar, P.N.H., see Chauhan, S.M.S. 159
Novello, F., see Campestrini, S. 17
Numata, H., see Ono, T. 31

SSDI 1381-1169(95)9999-Z

Ogata, N., see Ono, T. 31
Ohff, A., Burlakov, V.V. and Rosenthal, U.
Isomerization of olefins by titanocene and zirconocene alkyne complexes 103
Okura, I., see Amao, Y. 125
Ono, T., Numata, H. and Ogata, N.
Features of Raman band shifts of MoO_3 catalyst exchanged with ^{18}O tracer and active sites for reoxidation 31
Paganelli, S., see Lenarda, M. 117
Palma, G., see Hronec, M. 25
Palocci, C., see Catoni, E. 79
Plyasova, L.M., Solovyeva, L.P., Krieger, T.A., Makarova, O.V. and Yurieva, T.M.
The nature of hydrogen stabilization in the reduced copper chromites 61
Ragaini, F. and Cenini, S.
Homogeneous catalysis in water without charged ligands. Reduction of nitrobenzene to aniline by CO/H_2O catalysed by $[Rh(CO)_4]$ 145
Ramaswamy, A.V., see Mal, N.K. 149
Rosenthal, U., see Ohff, A. 103
Sahay, A., see Chauhan, S.M.S. 159
Satomi, K., see Sugiyama, S. 39
Shalyaev, K.V., see Talsi, E.P. 131
Shestakov, A.F. and Shilov, A.E.
Five-coordinate carbon hydroxylation mechanism 1
Shilov, A.E., see Shestakov, A.F. 1
Slivinsky, E.V., see Maksimov, Yu.V. 167
Solovyeva, L.P., see Plyasova, L.M. 61
Storaro, L., see Lenarda, M. 117
Sugiyama, S., Satomi, K., Hayashi, H. and Moffat, J.B.
Pretreatment effect in the oxidative dehydrogenation of ethane on magnesia in the presence and absence of tetrachloromethane 39
Suzdalev, I.P., see Maksimov, Yu.V. 167
Talsi, E.P. and Shalyaev, K.V.
^1H and ^{17}O NMR spectroscopic detection and characterization of titanium(IV) alkylperoxo complex 131
Toniolo, L., see Cavinato, G. 9
Travaglini, C., see Campestrini, S. 17
Tsodikov, M.V., see Maksimov, Yu.V. 167
Urriolabeitia, E.P., see Navarro, R. 111
Van der Waal, J.C., Bekkum, H.v. and Vital, J.M.
The hydration and isomerization of α-pinene over zeolite beta. A new coupling reaction between α-pinene and ketones 185
Vital, J.M., see Van der Waal, J.C. 185
Wang, M.-L. and Liu, B.-L.
Catalyzed reaction of carbon disulfide and *o*-phenylene diamine by tertiary amine 49
Yen, M.H., see Hsu, Y.F. 137
Yurieva, T.M., see Plyasova, L.M. 61
Zanoni, R., see Lenarda, M. 117

JOURNAL OF MOLECULAR CATALYSIS A: CHEMICAL

Subject Index

Activity–structure relationships
Study of cumene oxidation over zirconia-, titania- and alumina-based complex oxides obtained by sol–gel methods: activity–structure relationships 167
Aliphatic olefins
Isomerization of olefins by titanocene and zirconocene alkyne complexes 103
Alkylperoxo complexes
^{1}H and ^{17}O NMR spectroscopic detection and characterization of titanium(IV) alkylperoxo complex 131
Alkyne complexes
Isomerization of olefins by titanocene and zirconocene alkyne complexes 103
Alumina
Study of cumene oxidation over zirconia-, titania- and alumina-based complex oxides obtained by sol–gel methods: activity–structure relationships 167
Aromatic amines
Homogeneous catalysis in water without charged ligands. Reduction of nitrobenzene to aniline by CO/H_2O catalysed by $[Rh(CO)_4]$ 145
Asymmetric reactions
Chiral Pd organometallic complexes as catalysts in cyclopropanation reactions 111
Autooxidation
Autooxidation of cumene catalyzed by transition metal compounds on polymeric supports 137
Autooxidation of alkyl mercaptans catalysed by cobalt(II) phthalocyanine tetrasodium sulphonate in reverse micelles 159
Benzene
Hydrogenation of benzene to cyclohexene over polymer-supported ruthenium catalysts 25
Carbon monoxide
Homogeneous catalysis in water without charged ligands. Reduction of nitrobenzene to aniline by CO/H_2O catalysed by $[Rh(CO)_4]$ 145
A high pressure, high temperature infrared study of CO hydrogenation over Rh/ZrO_2 175
C–C coupling reaction
The hydration and isomerization of α-pinene over zeolite beta. A new coupling reaction between α-pinene and ketones 185
Chromite
The nature of hydrogen stabilization in the reduced copper chromites 61
Chromium
Photocatalytic reduction of chromium(VI) with titania powders in a flow system. Kinetics and catalyst activity 67
Cobalt
Autooxidation of alkyl mercaptans catalysed by cobalt(II) phthalocyanine tetrasodium sulphonate in reverse micelles 159
Copper
The nature of hydrogen stabilization in the reduced copper chromites 61
Copper acetate
Autooxidation of cumene catalyzed by transition metal compounds on polymeric supports 137
CTAB
Effective photoinduced hydrogen evolution with hydrogenase in surfactant micelles 125
Cumene
Autooxidation of cumene catalyzed by transition metal compounds on polymeric supports 137
Study of cumene oxidation over zirconia-, titania- and alumina-based complex oxides obtained by sol–gel methods: activity–structure relationships 167
Cyclic olefins
Isomerization of olefins by titanocene and zirconocene alkyne complexes 103
Cyclohexene
Hydrogenation of benzene to cyclohexene over polymer-supported ruthenium catalysts 25
Cyclopropanation
Chiral Pd organometallic complexes as catalysts in cyclopropanation reactions 111
Dehydrogenation
Pretreatment effect in the oxidative dehydrogenation of ethane on magnesia in the presence and absence of tetrachloromethane 39
Electrocatalysis
A comparison of electrocatalytic ability of various mediators adsorbed onto paraffin impregnated graphite electrodes for oxidation of reduced nicotinamide coenzymes 193
Epoxidation
^{1}H and ^{17}O NMR spectroscopic detection and characterization of titanium(IV) alkylperoxo complex 131
Epoxidation mechanism
Olefins epoxidation by Ph_4PHSO_5 catalyzed by manganese porphyrins: A novel mechanistic proposal 17

1381-1169/96/$15.00 © 1996 Elsevier Science B.V. All rights reserved
SSDI 1381-1169(95)9999-Z

Esterification reactions
Different aspects of 'solvent engineering' in lipase biocatalysed esterifications 79
Ethane
Pretreatment effect in the oxidative dehydrogenation of ethane on magnesia in the presence and absence of tetrachloromethane 39
Graphite
A comparison of electrocatalytic ability of various mediators adsorbed onto paraffin impregnated graphite electrodes for oxidation of reduced nicotinamide coenzymes 193
Heterogeneous catalysts
Liquid phase hydroformylation of ring substituted styrenes catalyzed by Rh–B and Rh–Zn–B systems supported on silica 117
Homogeneous catalysis
Homogeneous catalysis in water without charged ligands. Reduction of nitrobenzene to aniline by CO/H_2O catalysed by $[Rh(CO)_4]$ 145
Hydration
The hydration and isomerization of α-pinene over zeolite beta. A new coupling reaction between α-pinene and ketones 185
Hydrocarbons
Five-coordinate carbon hydroxylation mechanism 1
Hydroformylation
Liquid phase hydroformylation of ring substituted styrenes catalyzed by Rh–B and Rh–Zn–B systems supported on silica 117
Hydrogen
The nature of hydrogen stabilization in the reduced copper chromites 61
Hydrogenase
Effective photoinduced hydrogen evolution with hydrogenase in surfactant micelles 125
Hydrogenation
Hydrogenation of benzene to cyclohexene over polymer-supported ruthenium catalysts 25
Hydrogenation of α,β-unsaturated aldehydes over Ru/Al_2O_3 catalysts 93
A high pressure, high temperature infrared study of CO hydrogenation over Rh/ZrO_2 175
Hydrogen transfer mechanism
On the mechanism of the hydrogen transfer from H_2O–CO to γ-keto-α-hydroxy carboxylic acids to yield γ-keto acids catalyzed by a $PdCl_2(PPh_3)_2$ precursor in combination with hydrochloric acid 9
Hydroperoxide
Autooxidation of cumene catalyzed by transition metal compounds on polymeric supports 137
Hydroxycarboxylic acids
On the mechanism of the hydrogen transfer from H_2O–CO to γ-keto-α-hydroxy carboxylic acids to yield γ-keto acids catalyzed by a $PdCl_2(PPh_3)_2$ precursor in combination with hydrochloric acid 9
Hydroxylation
Five-coordinate carbon hydroxylation mechanism 1
Hydroxylation of phenol over Sn–silicalite-1 molecular sieve: solvent effects 149
Infrared spectroscopy
A high pressure, high temperature infrared study of CO hydrogenation over Rh/ZrO_2 175
Intermolecular hydrogen transfer
Isomerization of olefins by titanocene and zirconocene alkyne complexes 103
Isomerization
Isomerization of olefins by titanocene and zirconocene alkyne complexes 103
The hydration and isomerization of α-pinene over zeolite beta. A new coupling reaction between α-pinene and ketones 185
Keto acids
On the mechanism of the hydrogen transfer from H_2O–CO to γ-keto-α-hydroxy carboxylic acids to yield γ-keto acids catalyzed by a $PdCl_2(PPh_3)_2$ precursor in combination with hydrochloric acid 9
Kinetics
Catalyzed reaction of carbon disulfide and *o*-phenylene diamine by tertiary amine 49
Photocatalytic reduction of chromium(VI) with titania powders in a flow system. Kinetics and catalyst activity 67
Lipase
Different aspects of 'solvent engineering' in lipase biocatalysed esterifications 79
Liquid phase
Hydrogenation of benzene to cyclohexene over polymer-supported ruthenium catalysts 25
Magnesia
Pretreatment effect in the oxidative dehydrogenation of ethane on magnesia in the presence and absence of tetrachloromethane 39
Magnesium Chloride
Pretreatment effect in the oxidative dehydrogenation of ethane on magnesia in the presence and absence of tetrachloromethane 39
Manganese
Olefins epoxidation by Ph_4PHSO_5 catalyzed by manganese porphyrins: A novel mechanistic proposal 17
Mechanism
Five-coordinate carbon hydroxylation mechanism 1
Catalyzed reaction of carbon disulfide and *o*-phenylene diamine by tertiary amine 49
Mechanisms
^1H and ^{17}O NMR spectroscopic detection and characterization of titanium(IV) alkylperoxo complex 131
Mediators
A comparison of electrocatalytic ability of various mediators adsorbed onto paraffin impregnated graphite electrodes for oxidation of reduced nicotinamide coenzymes 193
Mercaptans
Autooxidation of alkyl mercaptans catalysed by cobalt(II) phthalocyanine tetrasodium sulphonate in reverse micelles 159
2-Mercaptobenzimidazole (MBI)
Catalyzed reaction of carbon disulfide and *o*-phenylene diamine by tertiary amine 49
Metal complexes
Five-coordinate carbon hydroxylation mechanism 1

Neutron diffraction
The nature of hydrogen stabilization in the reduced copper chromites 61
Nicotinamide coenzymes
A comparison of electrocatalytic ability of various mediators adsorbed onto paraffin impregnated graphite electrodes for oxidation of reduced nicotinamide coenzymes 193
Nitro compounds
Homogeneous catalysis in water without charged ligands. Reduction of nitrobenzene to aniline by CO/H_2O catalysed by $[Rh(CO)_4]$ 145
Olefins
Olefins epoxidation by Ph_4PHSO_5 catalyzed by manganese porphyrins: A novel mechanistic proposal 17
Oxidation
Pretreatment effect in the oxidative dehydrogenation of ethane on magnesia in the presence and absence of tetrachloromethane 39
Study of cumene oxidation over zirconia-, titania- and alumina-based complex oxides obtained by sol–gel methods: activity–structure relationships 167
A comparison of electrocatalytic ability of various mediators adsorbed onto paraffin impregnated graphite electrodes for oxidation of reduced nicotinamide coenzymes 193
Palladium
Chiral Pd organometallic complexes as catalysts in cyclopropanation reactions 111
Paraffin
A comparison of electrocatalytic ability of various mediators adsorbed onto paraffin impregnated graphite electrodes for oxidation of reduced nicotinamide coenzymes 193
Particle size effect
Hydrogenation of α,β-unsaturated aldehydes over Ru/Al_2O_3 catalysts 93
$PdCl_2(PPh_3)_2$ precursor
On the mechanism of the hydrogen transfer from H_2O–CO to γ-keto-α-hydroxy carboxylic acids to yield γ-keto acids catalyzed by a $PdCl_2(PPh_3)_2$ precursor in combination with hydrochloric acid 9
Phenol
Hydroxylation of phenol over Sn–silicalite-1 molecular sieve: solvent effects 149
Photocatalysis
Photocatalytic reduction of chromium(VI) with titania powders in a flow system. Kinetics and catalyst activity 67
Photoinduced hydrogen evolution
Effective photoinduced hydrogen evolution with hydrogenase in surfactant micelles 125
Phthalocyanine
Autooxidation of alkyl mercaptans catalysed by cobalt(II) phthalocyanine tetrasodium sulphonate in reverse micelles 159
α-Pinene
The hydration and isomerization of α-pinene over zeolite beta. A new coupling reaction between α-pinene and ketones 185
Pollution treatment
Photocatalytic reduction of chromium(VI) with titania powders in a flow system. Kinetics and catalyst activity 67
Polymeric support
Hydrogenation of benzene to cyclohexene over polymer-supported ruthenium catalysts 25
Porphyrins
Olefins epoxidation by Ph_4PHSO_5 catalyzed by manganese porphyrins: A novel mechanistic proposal 17
Powder X-ray diffraction
The nature of hydrogen stabilization in the reduced copper chromites 61
Reduction
Homogeneous catalysis in water without charged ligands. Reduction of nitrobenzene to aniline by CO/H_2O catalysed by $[Rh(CO)_4]$ 145
Reverse micelles
Autooxidation of alkyl mercaptans catalysed by cobalt(II) phthalocyanine tetrasodium sulphonate in reverse micelles 159
Rhodium
Homogeneous catalysis in water without charged ligands. Reduction of nitrobenzene to aniline by CO/H_2O catalysed by $[Rh(CO)_4]$ 145
A high pressure, high temperature infrared study of CO hydrogenation over Rh/ZrO_2 175
Ruthenium
Hydrogenation of benzene to cyclohexene over polymer-supported ruthenium catalysts 25
Hydrogenation of α,β-unsaturated aldehydes over Ru/Al_2O_3 catalysts 93
SDS
Effective photoinduced hydrogen evolution with hydrogenase in surfactant micelles 125
Semiconductors
Photocatalytic reduction of chromium(VI) with titania powders in a flow system. Kinetics and catalyst activity 67
Silicalite
Hydroxylation of phenol over Sn–silicalite-1 molecular sieve: solvent effects 149
Sol–gel methods
Study of cumene oxidation over zirconia-, titania- and alumina-based complex oxides obtained by sol–gel methods: activity–structure relationships 167
Solvent effects
Hydroxylation of phenol over Sn–silicalite-1 molecular sieve: solvent effects 149
Solvent engineering
Different aspects of 'solvent engineering' in lipase biocatalysed esterifications 79
Structure
The nature of hydrogen stabilization in the reduced copper chromites 61
Substituted styrenes
Liquid phase hydroformylation of ring substituted styrenes catalyzed by Rh–B and Rh–Zn–B systems supported on silica 117
Supported catalyst
Autooxidation of cumene catalyzed by transition metal compounds on polymeric supports 137
Supported catalysts
Hydrogenation of benzene to cyclohexene over polymer-supported ruthenium catalysts 25

A high pressure, high temperature infrared study of CO hydrogenation over Rh/ZrO_2 175

α-Terpinyl acetone
The hydration and isomerization of α-pinene over zeolite beta. A new coupling reaction between α-pinene and ketones 185

Tertiary amine
Catalyzed reaction of carbon disulfide and *o*-phenylene diamine by tertiary amine 49

Tetrachloromethane
Pretreatment effect in the oxidative dehydrogenation of ethane on magnesia in the presence and absence of tetrachloromethane 39

Tetraphenylphosphonium peroxomonosulfate
Olefins epoxidation by Ph_4PHSO_5 catalyzed by manganese porphyrins: A novel mechanistic proposal 17

Tin–silicalite
Hydroxylation of phenol over Sn–silicalite-1 molecular sieve: solvent effects 149

Titania
Study of cumene oxidation over zirconia-, titania- and alumina-based complex oxides obtained by sol–gel methods: activity–structure relationships 167

Titanium
^1H and ^{17}O NMR spectroscopic detection and characterization of titanium(IV) alkylperoxo complex 131

Titanocene
Isomerization of olefins by titanocene and zirconocene alkyne complexes 103

Triton X-100
Effective photoinduced hydrogen evolution with hydrogenase in surfactant micelles 125

Unsaturated aldehydes
Hydrogenation of α,β-unsaturated aldehydes over Ru/Al_2O_3 catalysts 93

Water
Homogeneous catalysis in water without charged ligands. Reduction of nitrobenzene to aniline by CO/H_2O catalysed by $[Rh(CO)_4]$ 145

Zeolite beta
The hydration and isomerization of α-pinene over zeolite beta. A new coupling reaction between α-pinene and ketones 185

Zirconia
Study of cumene oxidation over zirconia-, titania- and alumina-based complex oxides obtained by sol–gel methods: activity–structure relationships 167
A high pressure, high temperature infrared study of CO hydrogenation over Rh/ZrO_2 175

Zirconocene
Isomerization of olefins by titanocene and zirconocene alkyne complexes 103
